Feedback

We will send out a feedback form to the participants after each tour for them to complete and use this information to continually improve our services. The feedback form is also available on our website www.careaway.com.au

After each trip Careaway will send a short follow up letter about how the participant went on their holiday and a confirmation of which category they are suited to.

Contingency plan of action if a client is ill or injured

If a participant is ill or injured Careaway staff are to make an assessment as to the participants needs.

Basic First Aid to be carried out by Careaway staff after approval by the participant. (In this case the emergency contact will not be contacted, the person picking them up will be notified when we drop off the participant.)

To see a doctor (In this case the emergency contact or person organizing the holiday will be notified.) If it is assessed by doctors that the participant is no longer well enough to carry on with the rest of the holiday it is the responsibility of the participants support person or organisation to collect the participant as soon as possible.

To be taken to emergency (In this case the emergency contact or person organising the holiday will be notified.) If it is assessed by doctors that the participant is no longer well enough to carry on with the rest of the holiday it is the responsibility of the person's support person or organisation to collect the participant as soon as possible. If the participant is required to stay in the hospital it is the responsibility of the participants support person or organization to make further arrangements.

Have an ambulance called (In this case the emergency contact or person organising the holiday will be notified.) If it is assessed by doctors that the client is no longer well enough to carry on with the rest of the holiday it is the responsibility of the participants support person or organisation to collect the participant as soon as possible. If the participant is required to stay in the hospital it is the responsibility of the participants support person or organisation to make further arrangements.

Careaway needs to put this plan into place as we have a staffing ratio that we need to adhere to on our holidays. If one staff needs to leave the group to be with one participant it leaves the rest of the group understaffed. This is why it is important for the support people or organisation to make arrangements as soon as possible to allow the continuation of the smooth operation of the holiday and maintain the enjoyment and safety of all other participants and staff. We will stay with participant until arrangement can be made within a reasonable timeframe.
